DINESH PRAJAPATI

CAREER OBJECTIVE

Passionate and ambitious B.Tech graduate in Computer Engineering with a fervent enthusiasm for emerging technologies, including Web3 and AI. Eager to embark on a dynamic journey as a software engineer, leveraging my expertise and continuous learning mindset to drive innovation and contribute to cutting-edge projects in the field of technology.

SKILLS

ReactJs, NextJs, ThreeJs, NodeJs, JavaScript, TypeScript, C++, solidity, git & github, axios, vercel, tailwind, web3, blockchain, web design, Rest APIs, AI & Prompt.

EXPERIENCE

SSIU, Gujarat – [*React Bootcamp*]

- Conducted a 10 days Reactjs Bootcamp.
- Executed a transformative React app building bootcamp that equipped participants with expert knowledge on integrating APIs, optimizing performance, and implementing best design practices, leading to a 50% rise in app deployment proficiency.
- Build 10 projects.

PROJECTS

AI Article Summarizer

- <https://aiarticlesummary.netlify.app/>
- TOOLS USED : ReactJs, Rapid API, RTK query, github, vercel, Local storage, tailwind, daisyUI.
- Created an innovative article summarizer leveraging AI technology. Seamlessly summarizing articles within seconds, the application extracts key insights from URL links, enhancing efficiency and facilitating rapid comprehension for users.

Text Translator

- <https://trans-it.vercel.app>
- TOOLS USED: ReactJs, axios, Rapid API, ISO-639-code, Github, vercel, tailwind, daisyUI.

- Text Translator helps in translating text from one language to another language. This app auto detects the language of the text the user provides. This application supports more than 50 languages

Portfolio Website

- <https://www.github.com/sumz>
- TOOL USED : ReactJs, tailwind, threejs, shadcn, accertnity UI, react-tilt
- Implemented a custom-built Personal Portfolio website featuring interactive design elements, leading to a 25% increase in engagement and 15% growth in project bookings.

Fundraiser Web App

- <https://github.com/dineshEth/BuyMeTrip>
- TOOL USED : Nextjs, tailwind, stripe, framer motion, typescript.
- Only Authenticated users are allowed to create a trip or event campaign to raise funds, also authenticated users are allowed to donate in campaigns. Users get their 100% raise fund.

Currency Swapper

- <https://dinesheth.github.io/Currency-swapper>
- TOOLS USED : Reactjs, tailwind, currency API, github.
- Developed a real-time currency exchange calculator.
- Created a live currency exchange calculator, enabling seamless conversions with precision and accuracy. Enhances user accessibility and aids in financial decision-making

EDUCATION

Swarnim Startup & Innovation University, Gandhinagar

- *B.Tech Computer Engineering [Oct 2021 - sept 2025]*
- CGPA : 9.2

Gyandeep English School, Ahmedabad

- *High School [June 2019 - May 2021]*
- CGPA : 7.9
